

Thank you so much for inviting us to your school, it was a pleasure to do and would happily do it again.

Would it be possible for some copies of any drawings that the children may do as we would like to possibly put the up in our offices etc?

Once again, many thanks.
Neyland (Dale Brothers)

It was our pleasure! Mum and I thoroughly enjoyed ourselves, thank you for having us and for the delicious lunch! The children (and staff) were very welcoming, and they all used their manners, so were an absolute pleasure to work with. We also enjoyed listening to their little descriptions of the flowers and foliage.

Emma from Field Floristry

Students from Lamledge school come to Lower bush farm for a variety of different options, the younger years come for enrichment and love working with the animals and using the forest school section to enjoy playing and being in the fresh air, learning new skills.

Years 10 and 11 attend to do BTEC qualifications in land and environment skills, the students work alongside staff from the Farm but are always well supported by Lamledge staff.

Rowana, Lower Bush Farm

The visit to the RAF base in Cosford was organised to be informative, interactive and fast-moving where possible and this proved to be invaluable for the students that did attend. In the areas where they needed to be quiet and listen, they did. The highlight of the visit was the last event looking at aircraft in the hangar and some interactive exercises which the students genuinely seemed to enjoy and wholly participated in, which was very rewarding to witness. It was a valuable day for the students, who received information of gaining an apprenticeship in the RAF.

Katie RAF Cosford

Rob's been very good with our son over the years, Rob has built a good relationship with our son and helped him with his confidence, building relationships and helped him to understand his feelings around his future.

Rob's been helping our son with his future, work placements and job applications, and taking him to RAF. Our son speaks highly of Rob and would go to him for advice and any issues he had.

Parent

“ A student transitioned to Landau from Hillcrest in July 2022. This was aided by Rob Smart (of Lamledge school) who acted as a supportive and stabilising influence to the student and gave her the necessary confidence to introduce herself to new people. Rob was a professional source of information and shared essential information to give the student the best chance of a successful and seamless transition to Landau.

Rob has maintained regular and open communication with Landau to check on the progress the student has made. The support the student received during her transition has been hugely influential in aiding her to make huge progress in her time at Landau. She has gone on to be an ambassador and representative of the Learner Council, achieved a passing grade in her Level 1 Speaking and Listening Assessment and been an ever-present source of ideas and creativity when the Centre hosts events.
